Angel's on Arcadian
5850 Arcadian
De Pere, WI 54115

Dear Angel's on Arcadian Owner/Management/Staff,

My name is Mark S. Klepper, MD and I live in Texas. My specialty is Pulmonary and Critical Care. I spend the majority of my time in the I.C.U. so as you might imagine, I see very sick/ill patients on a daily basis. A lot of the patients that I see are elderly and come from nursing homes. Majority of those patients are not clean, have bed sores and the list goes on.

I was visiting your facility at the beginning of January with my wife and her family to visit her grandmother, Marianne Zehren. There were numerous things I observed about the nursing home from the moment I walked into the facility to the moment we left. As a physician, I suppose I notice more than the average person would. When I first arrived, I immediately noticed what appeared to be a very clean facility. When we went into Marianne's room, I especially noticed the very nice accommodations of cleanliness, privacy, and the attentive staff. The staff seemed very helpful getting her into her bed. When I looked her over, she was very clean, which can be hard to obtain with elderly nursing home patients. I noticed the concern for her and her safety of not rolling out of her bed. She had no bedsores and seemed to be in excellent care.

I would like to take a moment to say congratulations to you and your staff and "Thank You" from both my wife and I for taking such wonderful care of Marianne Zehren. What a blessing it is for these elderly patients to be living in what appears to be a top quality of care nursing home.

Kind regards,

Mark S. Klepper, MD
